

EZ TILTER™

MTL & MST MOBILE TILTERS

Bishamon®

*Available in both straddle
and non-straddle models*

Mobile tilters provide functional ergonomics and ease of access for your workforce. By bringing the work closer to the operator, mobile tilters improve material handling productivity, increase efficiency and reduce potential worker injury—adding profit to your bottom line.

Bishamon's MTL and MST Mobile Tilters are available in a wide choice of models including non-straddle versions with 2000 lb. and 4000 lb. capacities and a 2,000 lb. capacity straddle model.

All models feature infinite tilt adjustments with DC power units. Not only are they built SMART, they're built Bishamon TOUGH—for years of trouble free operation.

EZ Tilters® are simple to operate, rugged and versatile. They allow improved container positioning with very convenient height/angle adjustments. This, combined with the smallest reach over in the industry, provides improved operator access while reducing operator strain and fatigue. Better by design, EZ Tilters® are the solution to your work positioning needs.
